THE EXECUTION of Friday Nixon for the murder of Dick Richards, committed in October last, will take place in the jail yard at 12 o'clock today, under the direction of the deputy sheriff, J. A. Mushington. There have been quite a large number of applicants for tickets of admittance, but, with very few exceptions, all have been refused. This execution w.il probably be as private as any that has ever taken place in the United States. Not only are persons not admitted to the jail yard, but all opportunities for witnessing what is going on within it from the buildings adhave been debarred by the erection of a shed over and an enclosure around the scaffold.

SHREDS OF STATE NEWS .- The Columbia Oil Company is now fairly established, \$20,000 of its capital stock having been paid in. A strong company, whose watchwords are enterprise, industry and intelligence.

Captain Hugh H. Thompson, principal of the Columbia Male Academy, invites the teachers of the State, not connected with the "free common schools," to meet in convention at Columbia the first week in May. We learn that the residence of Mr. J. B. Rogers,

AMUSEMENTS.

The Academy of Music-Lucia di Lammermoor

Opera Troupe ended last night with the representation of Donizetti's "Lucia di Lammermoor." During the first act little warmth was exhibited by the audience, but the finale to the second act was applauded to the echo. The marks of appro val were as hearty as they were long continued, and Miss McCulloch was honored with a shower of bouquets, which, at one time, promised to have no ending. In the third act Signor Brignoll sang deliciously. The audience insisted upon a repetition of the touching air with which the scene opens, and, after waiting, good humoredly enough, for the storm of applause to subside, Signor Brignoli advanced to the footlights and sang-"Good bye, Sweetheart!!! Of course it was deliciously rendered, but an artist of Signor Brignoli's undoubted taste and culture should know better than to introduce a dawdling ballad into the superb last act of a grand tragic opera. To chant "Shoo Fly" on the ramparts of Dunsinane, or the Field of Bosworth, would be quite as appropriate, and, per

haps, in better taste. When the curtain fell Signor Brignoli was called out, and the applause was kept up until the accomplished tenor brought forward Miss McCultoch who bowed her acknowledgments and hastily retired.

The audience last night was the most fashionable, as well as the most numerous, of the week. A large number of persons took this occasion to show their high appreciation of the professional ability and private character of Misa McCulloch, and it is regretted that the public announcements should have caused it to be believed that the performance was for the benefit of the artiste herself. Information which was received yesterday convinces us that Miss McCulloch had no greater interest in the representation of "Lucia" than in any other performance which took place during the week. The compliment to her was, nevertheless, a handsome one.

THE DECLINE IN GOLD.

The Effect on the Charleston Market

The popular theory that all commodities must immediately fall in price in the exact degree of the fall in the premium on gold, has led the public to expect a very sudden change in the ruling prices of staple articles. It must, however, b borne in mind that there are other elements of cost besides this famous premium on gold. Price, at last, is governed by the cost of production; and until wages become lower, or the power of production is increased, there can be no rapid change in prices, even although greenbacks rise to their nominal value in specie. In nearly all imported articles there has been a considerable reduction in price, for in that case the lowering of the premium was a direct lowering of the cost-These things are well understood in Charleston and a careful inquiry discloses the fact that in this market the merchants and jobbers have followed the fall in gold, and sell their goods according to a gold standard. This applies to all branches of wholesale business, which, indeed was not referred to in the trade paragraph printed in The News of vesterday." It is almost impossible to state exactly the decline in prices in this city, but the general results may be stated as fol-In groceries there has been a considerable de

cline, and especially upon imported articles, such as sugar, molasses, &c. Coffee, on account of the limited supply and great demand, has remained almost unchanged. In dry goods there has been considerable

change, and all articles are being sold at New been buying goods, stated that he could buy as cheap here as in New York, and save insurance and freight. In clothing the reduction has corresponded

with the decline in gold. The shoe trade has also experienced a change

but it is the opinion of some that the lowered prices are as much due to the large supply and limited demand as to the decline in gold. Drugs, chemicals. &c., have fallen with the

price of gold, excepting in patent medicines and other articles of the trade manufactured in this country. Hardware, like drugs, followed gold on its

downward march. In other lines there has been a depreciation, excepting, perhaps, in a few articles, similar to tain lead, nor any vitatic poison to produce parthose above mentioned.

All of our merchants have full supplies, and are ready to meet the market, and even anticipate a The genuine W. A. BATCHELOR'S HAIR DYE decline when it is apparent.

How the Appropriation for the Charleston Sisters of Merey was Passed by the House of Representatives.

Those who are familiar with the history of the Congressional measure giving \$20,000 to the LIEBIG, the inventor, and of MAX PETTENKOF 944.574 Charleston Sisters of Mercy to enable them to FER, delegate. ebuild their orphan asylum, and who know the many, many difficulties and disappointments which the patient efforts of the good Sisters have at length substantially overcome, will read with nterest the following extract from the Globe's official report of the proceedings of the House of Representatives, connected with the passage of he bill, on Monday last : .

the bill, on Monday last:

Mr. Dawes. I ask leave to report from the Committee on Appropriations a bill for the relief of the Sisters of Our Lady of Mercy, of Charleston, S. C., and that it be put upon lis passage.

The bill was read for information. It provides that in consideration of the services rendered by the Sisters of Our Lady of Mercy of Charleston, S. C., to sick and wounded Union officers and soldiers while the said city was under bombardment during the war, there be paid at of any money in the Treasury not otherwise appropriated, the sum of \$20,000, to be expended under the direction of Sister M. The yeas and nays were ordered.

Mr. Payne. I rise to a point of order. I wish to inquire whether, in the shape in which the gentleman from Massachusetts makes his motion, one vote would not suspend the rules and pass the bill?

The Speaker. It would. In the way the gentlemen has offered his motion it would only require one vote to suspend the rules and pass the bill.

Mr. Schoffeld. Debate is not in order I suppose. Mr. Schollett. Devate is not in order I suppose. The Speaker. It is not.

I want to vote for it and I know nothing at an about it.

Mr. Dawes. I will explain it if the House will indulge me. I put the motion in this shape so as not to consume time.

Mr. McGrew. I object to any explanation.

Mr. Wood. I ask unanimous consent to have read the resolutions adopted by the Legislature of the State of South Carolina recommending this appropriation, and the message of the Governor of the State on the subject.

Mr. Benjamin. I object.

The question was taken, and it was decided in the affirmative—yeas 109, nays 48; not voting 65.

So (two-thirds voting in the affirmative) the rules were suspended, and the bill (H. R., No. 1597) was received and passed.

Mr. Bowen asked and obtained leave to have printed in the Globe some remarks he had prepared upon the bill just passed.

York Herald says:

There is considerable talk here to-night about the opposition displayed by some Congressmen to-day to the appropriation of twenty thousand dollars to rebaild the orphan asylam of "Our Lady of Mercy," at Charleston S. C. The Sisters of Mercy were unwearying in their care of and attention to Union soldiers during the late relection, and their asylum was destroyed by the fire occasioned by the bombardment of Charleston. Every reasonable man admitted the justice of the claim of the good Sisters, and yet there were found forty-six members to-day, among them Yan Wyck, Ward, Kelsey and Ketchum, of New York; the Forrestian Kelley, of Pennsylvania, and Sydney Clarke, of Kansas, voting against it. Van Wyck's opposition occasioned considerable surprise, in view of the fact that he owes his election over Green mainly to Catholic support. The bill will hass the Senate without difficulty. A word with these involuntary shakers. What are they doing to expedite their return to a medium tem perature?-to break the chills and banish the fever? Are they dosing themselves with quinine, thereby imperiling the soundness of their bones and impairing the vigor of their brains and ner vous system ! Some of them are, no doubt, but not the majority of them, it is believed. The value of HOSTETTER'S STOMACH BITTERS as a harmless and certain specific for fever and ague, is understood and appreciated in all parts of the country where intermittents prevail. The residents of such localities begin to take it early in the spring as a protection against the miasma by which they are surrounded; not all of them, perhaps, for a blind adherence to error is the special ty of some people, but the greater number.

If there is any fixed fact in therapeutics, it is this, that the Bitters are a far better safeguard against all the varieties of periodic maladies produced by unwholesome exhalations than any drug or compound in the materia medica of the profession. This assertion is made with all due respect to the faculty, but being an important truth, and one that nearly concerns the health o large settlements in various parts of the country and 'udeed of the public at large, it is made fear lessly.
